Skills

Java | OOPs | JavaScript | React.js | Redux Toolkit | NodeJS | Express | MongoDB | HTML | CSS Frameworks | Git & GitHub | Docker

Work Experience

Weby-Appy Digital Partner | MERN stack Intern

Jan'24 – March'24

- Developed and deployed a full-stack web application using MERN (MongoDB, Express.js, React.js, Node.js) technology stack.
- Collaborated with a team of developers to design and implement user-friendly interfaces and RESTful APIs.

Datta Meghe College of Engineering - Student Management website | Front end Developer

Mar'24 - June'24

- Developed a user-friendly front end using **React** and Tailwind **CSS** for a web application and **Integrated APIs** to ensure seamless communication between the front end and the back end

CSI-DMCE | Web Developer

July'23 - present

- Delivered **over 6 projects** for many events.

Education

Datta Meghe College of Engineering, Airoli, Mumbai, India

| Navajeevan Highschool and junior college, Rajapur

Bachelor of Engineering in Computer Engineering (2021-24)

| HSC (Class XII) (2021-22)

Projects

Medium - Blog Website

Dec'23

A blog website with rich text editing, file handling, Google login, and social interaction features.

- Created in **MERN** stack with **AWS** for file handling and Editor.js for writing blogs.
- Integrated Google login functionality using **Firebase** for seamless authentication with like, comment, and share functionality

DMCE - Student Management Website

April'24

A web-based software for data management.

- Developed front end using **React**, **Tailwind CSS**, and **Context API** for state management, integrated API for backend communication.
- Live** website with dedicated admin section for managing and exporting student data as **PDFs**, actively used by over **570** Computer Department students

BLL - Company Invitation Sender

Feb'24

A platform for event invitations with direct email sending, and user access management.

- Developed a **MERN** stack platform integrated with **Cloudinary** for image management, enabling BLL Company to create, manage event invitations, and **track attendance**, with direct **email** sending of personalized invitations
- Special admin functionality allows **customized user access management**, ensuring efficient event management and user access control for BLL Company's exclusive use.

Referral Management Website

March'24

*Developed for Weby-Appy Company to manage project referrals with **normal** and **admin** user roles.*

- Normal users can add project referrals, while admins access all referrals, fulfilled referrals, and user **statistics** via a detailed admin panel with **graphs**.
- Live website using **JWT** for authentication and **bcrypt.js** for password hashing, enhancing security and efficiency in project referral management.

Academic and Extracurricular Achievements

- Winner of Recursion 5.0, a **24-hour** national level hackathon, competing against over **560 teams**.
- Secured **1st** position in Electrowiz, a **national level** project competition.
- Ranked in the **top 5** in DMCE Hackathon 2.0, competing against **150 teams** in a 24-hour hackathon
- Top 9** in Hacksparrow-2024, a 36-hour **national level** hackathon with over **700 teams**
- Achieved **top 7** in Vega 2024, competing against **300 teams** in a 24-hour hackathon.

Positions of Responsibility

Computer Society of India (CSI) | Tech team member
